

## Silicone-Free

This certificate verifies that Biotix resin vendors have confirmed they do not use silicone, silicone oils, greases, rubbers or any other silicone-based products in the manufacture of or formulation of our resins, which comprise our raw materials. Additionally, Biotix does not use silicone, silicone oils, or other siliconized products in the production of our laboratory consumable products.

As every application is unique, Biotix recommends that you test the product and make your own determination that the use of the product is suitable to your particular use.

Sincerely,

A handwritten signature in black ink that reads "R. Flores".

Rafael Flores  
Director of Quality Assurance
